**Note:**
Admission Rate = number of admissions divided by total served during the year.
US Admissions During Year uses data from states reporting data only. States are only included in "US Total Served" if they also reported data on admissions.
US Total Served During Year is calculated using data in URS/DIG Table 3, State Total Served During Year is calculated using data from URS/DIG Tables 3.
This table uses data from URS/DIG Tables 3 and 6.
