

# PERFECTpayroll

PerfectPayroll is a Microsoft web native payroll system that makes processing your payroll fast, efficient and accurate. Because you access it via a web browser, you enter and maintain your data, and process your payroll from anywhere you have access to the Internet.

Payroll is a time consuming and critical process. Finally a web native payroll solution for middle market companies that saves precious time, money and is intuitive to use.

PerfectPayroll is designed for middle market companies like yours. Our clients have been able to achieve these goals:

- Eliminate the time consuming process associated with older payroll products
- Electronic tax payments and form filing for state and federal taxes
- Print checks or use the Direct Deposit feature included in the system
- Handle salaried, hourly, piece work or job costing calculations easily
- Produce 941 reports on demand
- Print W-2's directly from the system without the need for third party software
- Define unlimited income and deduction types and structure deferred compensation quickly and easily
- Process selected employee groups so handling complex payrolls is simple and straight forward
- Batch or manual entry of payroll information
- User and group security ensures proper access to critical information

PerfectPayroll provides you with the capability to enter, maintain, process and report on crucial payroll information.

Imagine a world where you are free to analyze information and not have to worry about the data administration functions that are inherent in manual or cumbersome payroll systems. Your time will be spent providing management with strategic business information that will help them achieve the future success of your organization.

PerfectPayroll is integrated to the powerful Crystal Reports system so that you can produce compelling reports for payroll and workforce analytics.

PerfectPayroll includes a powerful tax compliance calculation engine that assures accurate results every single payroll. PerfectPayroll provides you with the capability to electronically file and pay state and federal taxes.

Your employees will be happy with the service you provide them and with PerfectPayroll there will be less time spent dealing with errors and incorrect information.

PerfectPayroll is available as a standalone application or can be integrated to the world class Human Resource Information System, PerfectHR. With PerfectHR your capabilities are multiplied by providing a completely integrated Work Force Management System.

With PerfectPayroll, the system performs all of the routine tasks and stores your information in a single database that can be shared with other departments and applications. PerfectPayroll helps make your world a more Perfect World.
