Our new Burley tech classes allow students the freedom to do hands-on creating as they are learning science, physics and engineering principles. Self-confidence builds throughout the semester as

students practice and learn one skill after another, one tool after another. Students are teachers and generous in sharing their knowledge with others. It's rewarding to see eager learners who can't stop making! They ask to stay in class at lunch time, too!

Gabrielle Schoppa, Burley Middle School Teacher

Our most vital asset is our personnel. The success of our students depends on our ability to attract, maintain and develop high-quality employees in all areas of our organization.

We cannot accept a decline toward average.

What Does Exemplary Performance Look Like?

Employees who ...

- Positively impact student learning and school climate;
- Empower students and colleagues;
- Sustain high performance throughout their careers;
- Value professional learning; and
- Serve as role models, mentors and leaders.

Great Teachers Create Great Value

A recent study conducted by economists from Harvard and Columbia universities shows that students in classrooms of excellent teachers are **MORE LIKELY** to:

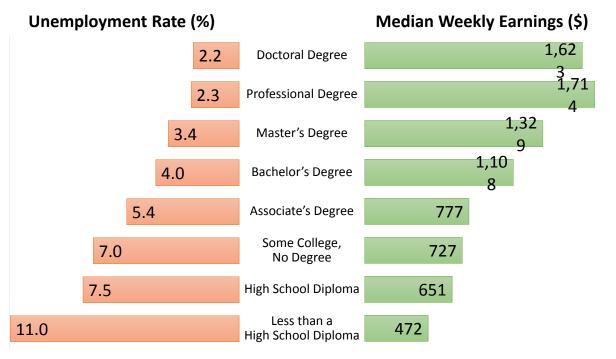

- Participate in post-secondary education;
- Earn higher salaries;
- Attain higher-quality life opportunities; and
- Save more for retirement.

Earning Potential: College Graduate vs. High School Graduate*

	Annual	Lifetime
Bachelor's Degree	\$60,954	\$2.7M
High School Graduate	\$33,618	\$1.5M

- The baby boomers are approaching retirement.
- Teacher salaries are not competitive with other professions.
- Hiring excellent teachers will be more challenging in the next decade.

COMPENSATION

Met expectations: 48.8% Met expectations: 40.5% Less than expected: 44.0% Less than expected: 57.8%

62.3% of respondents indicated that it is economically necessary to supplement their salaries.

77.8% of respondents reported that they supplement their salaries with additional income.

If we cannot pay teachers in a way where they can live in the very communities that they serve, something is not only terribly wrong, but it is also potentially detrimental ... I fear that by not paying teachers better, we will be extending our debt to a point that far outweighs the worth of our teachers. Just as millions lost their homes, we will lose our teachers. And if, for some reason, our teachers don't physically leave us, we will most certainly begin to lose them in terms of morale. Compensation is a direct reflection of what we value.

Michael Irani, Meriwether Lewis Principal
