AUTOMATIC SECTION CONTROLLER

1 0 0 % J A C T O P R E C I S I O N A G R I C U L T U R E

AUTOMATIC SECTION CONTROLLER MAIN BENEFITS AND FEATURES

- Increase profitability by avoiding overlaps and eliminating waste of agrochemicals and fertilizers with the automatic section opening and closing control.
- Reduce damages caused by herbicide or fertilizer overlaps in crops.
- Improve operation quality and have more free time to control all other machine features.
- Reduce the use of inputs and minimize environmental impact.
- Maximize operational efficiency and increase speed at boundaries.
- View on the monitor the application being carried out.

Technologies for new times.
