

Payment Processors

Payment Processor Plugins

Woocommerce - Powers 30% of all ecommerce websites. It is authored by Woocommerce and they sell various plugins built for it. We do however have access to distribute various plugins. It is not required that you pay extra for these. We have preinstalled several and have made others available in the member area.

Woocommerce.com - Great resource for instructional how to videos.

Payment Plugins (no need to purchase):

- PayPal Standard - Comes built into Woocommerce
- PayPal Advanced - Preinstalled with Launchpad
- PayPal Pro - Available for download in members area
- Stripe - Available for download in members area

Paypal Information

- You do NOT need to buy the WooCommerce Paypal plugin... it's already installed on websites built using Command Center!
- If you didn't build your website using the command center, you still don't need to buy this plugin ...
