"When you fail, you ponder. When you succeed, you party."

This one quote opened my eyes to the opportunities available to me. It made it clear that because I was broke, I had time to think. That quote got me to realize: if I would be willing to do what most people won't, I'd get myself out of the hole I was in.

No matter where you are in life, it's not too late to get ahead. It's never too late to turn your life around...

What if you could buy and flip businesses the same way you could real estate? And what if it was easier, more profitable and had MANY more advantages?

The truth is, it does! After buying and flipping real estate since the 80's (and lost everything in the crash), I was introduced to buying and flipping businesses. And what I found was that it was similar but easier and more profitable. Since then I have perfected the formula and have taught thousands how to do the same.

Hey Smart Marketers! Do you know the #1 reason most businesses fail? It's because they don't have enough customers. So, I've decided to host a private training where I'll be teaching "How To Use Facebook Advertisements To Find Lots Of Customers That Pay You What You Deserve".

Click here to register: www.fbadsreallywork.com

Here's a little sample of what I'll be covering:

1. The exact Facebook ad I used to jumpstart my company and generate \$10k sales in one day.
2. How to turn complete strangers, who've never heard of you, into high paying customers.
3. The process we use everyday to turn page "likes" into paying customers - because last time we checked you can't deposit "likes" into the bank.
4. How to take your current and previous customers and get them to happily pay you on auto bill every month. (kinda like your gym membership)
5. I'll walk you through the exact presentation that I take all my appointments through to close 95% of the time. It's 100% digital and requires zero face-to-face time.
6. The only service that we provide our customers that's responsible for 100% of our agency revenue and it takes a fraction of the time to deliver results than most online marketing services.

Strong Coffey Personal Training

about 7 months ago

If you're a strong woman who feels inexplicably out of control when it comes to food, you're in great company.

Twelve years ago I was morbidly obese, addicted to quick comforts, and terrified that any effort I made to change would end in failure.

Then, at my lowest point, I discovered strength I didn't know I had.

I got clear on what was keeping me from maintaining a comfortable weight (despite having had MASSIVE weight loss surgery!) and my simple system to end self-sabotage was born.

My system can help you:

- 1- Stop feeling out of control around food,
- 2- Stop dreading, avoiding, and short-changing yourself on exercise, and
- 3- End self-sabotage so you can finally feel comfortable in your own skin.

If you're ready to make real change, then join me for my free, hour-long, introductory workshop.

I'm excited to hand you the key to freedom from this crazy cycle.

All good things,
Coffey

PS: If you want to get well without losing yourself in the process, this free workshop is for you. Sign up now - now would be best. 😊
