Discover the Greek Islands with Just One Pass!

Greece is one of the most popular destinations in the world, attracting millions of visitors every year. The country offers a wide variety of tourist attractions and can be characterised by its mountainous landscapes, sandy beaches, tasty food, rich history, and its popular islands.

Interrail and Eurail offer two Greek Islands Passes that allow you to discover the Greek islands as you hop from one island to the next. Using the high-quality ferry services of Superfast Ferries and Blue Star Ferries you can explore Greece's most beautiful islands, such as Crete, Santorini and Mykonos, in complete comfort. Go all-in with two international trips between Italy and Greece, 4 trips between the Greek islands, and free rail and bus transfer from the international port of Patras to the domestic port of Piraeus; or put your focus on exploring the Greek Islands in full with the newly introduced 5-trip Greek Islands Pass. The Greece-Italy and Crete routes are jointly operated with Anek Lines.

Practical Information

How to Use the Greek Islands Pass

Before you embark the ferry, it is extremely important to write the travel date in the Travel Calendar on your Pass. Not doing so is the same as travelling without a ticket, which means you will have to pay for a full-fare ticket.

How to Fill in the Travel Calendar on the Ticket

The Travel Calendar will have a day and a month box for each of the trips you are entitled to. The day and month should be written in the proper boxes under '1' for the first ferry trip, '2' for the second ferry trip, and so on. This should not be done with a pencil, but with blue or black ink.

Travel day in Travel Calendar

Additional Trips

For any additional domestic trips beyond the 4 or 5 that are included in the Pass, you are entitled to a discount of 30%. Making use of this discount does not require the use of a "trip" in the Travel Calendar and can be done throughout the entire validity of the Pass. There is no limit on the number of times the discount can be used.

Mistake in the Travel Calendar

You are advised to fill out the Travel Calendar with care. Mistakes cannot be corrected, since an altered travel date can be interpreted as attempted fraud. When a mistake is made in the Travel Calendar, it can only be corrected by entering the desired date in the next box. This means that you lose one trip.

Do's and don'ts for the Travel Calendar:

- Only use a pen with black or blue ink (non-erasable)
- Do not use a pencil
- Fill in the date before you start the trip
- Enter two digits per day/month (see example on the previous page)
- In case of an overnight ferry, please fill in either the day of departure or the day of arrival
