

PIPEHUNTER

NON-CDL HYDRO-X TRUCK

- 3, 4 OR 5 YARD HX TRUCK MOUNT
- NO CDL REQUIRED
- MUNICIPALITY AND CONTRACTOR-DUTY RATED

1.800.373.1318 • PIPEHUNTER.COM

Applications

- Hydro-Excavation
- Jobsite Cleanup
- Catch Basin Cleaning
- Stormwater Maintenance Tasks
- Wastewater Maintenance Tasks
- Treatment Plant Maintenance

Non-CDL Chassis (26,000 GVWR)

Triplex LP Series Water Pump

Water Level Display System

Telescoping & Articulating
Boom with 180 Degree
Range of Motion

3,300 CFM Positive Displacement Blower

Full-Time Live Hydraulics
No Engagement Needed

READY TO SOLVE INFRASTRUCTURE ISSUES, IT'S BETTER THAN BIG

Capable of handling almost anything your crews that throw at it, the PipeHunter Non-CDL HX truck can get it done. Sharing the same design philosophy as our 3-Yard Mini-Combo, this truck knocks out work.

Bigger Than You Think

We surveyed cities across the US, your crew dumps less than you think. We built this for everyone. This truck is sized for almost any HX tasks.

No CDL Required

Get past this requirement that slows crews down waiting on a driver to finish up school. Get in the field and start knocking work orders out.

More Agility

The turning radius and short wheel base allows this truck to be very agile in urban environments. No more 4 point turns due to tight alleyways and crowded streets. Get to the problem faster with PipeHunter.

Powerful Water System

Don't buy those little pumps and work them at full speed. We slow down a larger series pump to keep RPM's low and flows up. We didn't leave operators without the power to clean. This system still features 3,000 PSI working pressure to breakup dirt when it gets tough.

Chassis & Body Features

- Non-CDL Chassis (26,000 GVWR)
- Storage Trays
- PipeHunter Urethane Polymer Coating with Multiple Color Options
- Custom Safety & Area Lighting
- 180° Hydraulic Driven Front Reel Articulation
