In His image

In the busyness of life, we can forget where we've come from. It's such an important part of our theology, but still in the chaos of life, we forget. God created us in HIS image. What a wonderful thing to know and understand, so what does it mean? It shows us that we were created by a direct act of God--not through natural or theistic evolution. It also shows us that man was created in God's sovereign plan to be a very special place in God's creation--the highest significance in the creation order. Man's creation was the last major event of the sixth day of creation as the climax of God's activity, and man's creation was the only creation that said he alone was going to be created in the image of God. God breathed life into man, and Genesis 2 focuses on man not the other created things like animals or the seasons or the moon. What a phenomenal God we serve! He, who is mighty, sovereign, and eternal, created us in His image with a special part in His kingdom. We have no reason but to say, "Glory be to God!"
