The Election: What It All Comes Down To – Part 2

In these closing weeks leading up to November 5th, we are looking at some of the main issues that make this year’s election so extremely pivotal. [Last week](#) we described how our country will move further down the path to a Marxist tyranny if Kamala Harris is elected. She is a bona fide Marxist [by her own pronouncements](#), and the policies she espouses are Marxist. Four more years on our current path will allow Marxists to consolidate power in the United States, and it will be very difficult to recover a true democracy in our lifetime. The recent Prayer Report series, [“The Marks of Marxism”](#), outlined how and why the implementation of Marxist ideals always leads to totalitarian government. Not everyone likes Donald Trump, or even all his policies, but he is no Marxist, and he is the only candidate on the ballot standing in the way of a Marxist-Communist future for America.

Beginning in this week’s Report and continuing next week, we will look at what many people believe is the most important specific issue in this election, and how it relates to the globalist Marxist agenda.

It All Comes Down to Secure Borders versus Open Borders

When Donald Trump came down the escalator at Trump Tower on June 16, 2015 to announce his candidacy for the Presidency, he specified that securing our border would be his top priority. He claimed that day that many of the illegal aliens crossing the border and coming into the country were criminals, murderers and rapists, etc. He immediately received major pushback from Democrats and their public relations arm, the Marxist Media¹. He was even ridiculed by some in his own party. But what he said that day has proven to be true. No one expected Trump to win in 2016, but he did. And he kept his promise to make border security a top priority in his administration. By the time he left office in 2021, the border was the most secure it had been in decades, and perhaps the most secure ever².

By contrast, Joe Biden and Kamala Harris came into office in 2021 [calling for an open border and mass migration](#) to the United States by anyone seeking asylum. Biden stopped construction of the wall that was being put into place by the Trump administration³. From the very outset of his term, he began dismantling the policies of his predecessor that had led to a secure border. It didn’t take long for the word to get out that the United States was open again, and people began heading to our southern border. In the few years since, over 12 million people have been allowed to enter the country seeking asylum⁴. Trump’s policy of “catch and release’ into Mexico for asylum seekers while they wait for their

immigration hearing was changed to “catch and release” into the United States. Consequently, people have been coming from all over the world. And, as recently released statistics indicate, and as if Donald Trump is a prophet, thousands of them are violent criminals and terrorists⁵.

Regrettably, there is a lot of ignorance about the border issue. First, many people think those who oppose illegal immigration are against all immigration. There is a distinction that must be understood between wanting to stop illegal immigration and supporting LEGAL immigration. Nearly one million people each year are received into our country LEGALLY. These are people who have been vetted, background-checked, etc., and they have a legitimate, demonstrated, or oftentimes an adjudicated reason for moving here. These LEGAL immigrants begin a process to become citizens that takes more than five years. Part of this LEGAL entry process is that they must learn some things about our nation: its history, its government, its values, etc. This enables them to be more readily assimilated into our society and culture. At the end of the process, they swear their allegiance and loyalty to their new country and are given full standing as citizens. Virtually everyone is in favor of immigrants entering our country this way – that includes Donald Trump and his supporters. And yet, many people fail to make this distinction. They think if someone is opposed to illegal immigration they are opposed to all immigration. You hear them throwing out irrelevant platitudes like, “We are a nation of immigrants,” and asking, “Doesn’t it say on the Statue of Liberty, ‘Give me your tired, your poor, your huddled masses yearning to breathe free ...’?” The answer to these misleading arguments is: “Yes, we are a nation of immigrants, and, yes, it does say that on the Statue of Liberty. But that has nothing to do with the debate about an open border. No nation can long survive an open border. Any sane and rational person should be able to see that. It is an insane idea brought to us by Marxists who want to deconstruct our society.

There is a second area of ignorance about the border issue. Mass migration across our southern border is more than just a plot of the Democratic Party to get more voters and achieve one-party rule in the United States. As Elon Musk recently explained, [it is that](#), but it is much more than that. It is all part of a United Nations global plan and policy known as the **Global Compact for Migration**. This Compact, which has been signed by 155 nations, including the United States, involves a web of U.N. agencies and NGOs (non-governmental organizations) that work together to facilitate the mass migration we see taking place. Some of these NGOs are secular philanthropic organizations, and some are religious. They are all part of the problem. **In next week’s edition of the Prayer Report**, we’ll cover the evil and sinister nature of this Global Compact for Migration and its relationship to the globalist goals of the U.N. and China. And brace yourself, your tax dollars are helping pay for it.

¹ The 714 Prayer Report refers to the mainstream corporate media (ABC, CBS, NBC, CNN, MSNBC, New York Times, Washington Post, etc.) as the Marxist Media. Ninety percent plus of the “journalists” who work for the news divisions of these major corporate media entities have been trained in our Marxist Universities and are themselves Marxist Democrats.

³ He did this even though the materials were already in place, laying on the ground in front of where they would have been put in place. It would have only taken [a few months at most to complete the construction](#). Instead, Biden ordered that the materials be sold as scrap at pennies on the dollar. He said [not one more foot](#) of border wall would be constructed.
