**“If My people who are called by My name  
will humble themselves, and pray and seek  
My face, and turn from their wicked ways,  
then I will hear from heaven, and will  
forgive their sin and heal their land.”**

### **The Election: What It All Comes Down To – Part 3**

This year’s election is, without any question, the most important election of our lifetime. In many ways, it will determine what the rest of our lives here in the United States of America will look like. For over one hundred years, radical left Marxists have been staging a cultural revolution, waiting for this very moment. They are now poised to consolidate power and initiate [a new era of a one-party system](#).

[In a recent poll](#), 79% of respondents reported they believe the country is on the wrong track. You would think that portends a landslide for the party not currently in power. But in the head-to-head matchup for the presidency, the polling indicates the nation is split down the middle.

So, to help establish some clarity of thought among Christians, the 714 Prayer Reports leading up to the election have been dealing with some of the key issues before the nation at this time. Everyone is aware of some of these issues, but regarding others, many sincere people remain uninformed and naively fail to see the potentially dark hour we have come to if we don’t change course.

This is a shame, of course, because if evangelical Christians (i.e., Bible-believing Christians) would inform themselves and involve themselves in the electoral process and vote their Biblical convictions, every election would be a landslide. There are at least 90 million evangelicals in the United States, but only about 70% are registered to vote and only about 60% actually vote.<sup>1</sup> When you think about the tremendous pain and suffering that is inflicted on an entire nation because of leftist policies that get enacted, it really is a serious sin of omission for a Bible-believing Christian not to vote.

So far in this series, we have seen that this election really does come down to [liberty versus tyranny](#). Our basic freedoms, like freedom of speech, freedom of religion, and the right to bear arms, really are on the ballot like never before. Last week we began looking at the issue of the open border. We will continue and conclude our treatment of this vital issue this week.

### **It All Comes Down to Secure Borders versus Open Borders [\(continued from last week\)](#)**

In last week’s Prayer Report, we contrasted LEGAL immigration with ILLEGAL immigration. We pointed out that virtually everyone is in favor of LEGAL immigration and the nearly one million immigrants who become citizens each year. Donald Trump and those who support him are in favor of

LEGAL immigration. The issue is not about LEGAL immigration. The disastrous, dangerous and deadly policy of allowing more than two million unvetted, illegal immigrants to enter the country each year is the focus of this issue.

Also last week, we began presenting the evidence that this current wave of illegal immigration is part of a United Nations global policy that has been signed onto by 155 nations. This policy is known as the **Global Compact for Migration** (its full official name is, Global Compact for Safe, Orderly, and Regular Migration). The ultimate goal of this Compact is to achieve a major shift in the global power structure. The current power structure is considered to be “unipolar”. That term means there is only one major power center in the world – the United States and its European allies. The objective of the Compact is to eventually flood the United States with up to 200 million immigrants and so weaken the social, cultural, economic, and governmental fabric of the nation, that it would no longer be able to be the dominant power on the world scene. The plan is to replace the current unipolar world order with a multipolar world order. With the United States out of the way, that multipolar world order could eventually be morphed into a one world order dominated by Marxist ideology. China, of course, is fully onboard with this plan, because it plays right into their goal of world domination.<sup>2</sup>

The Compact contains provisions to help facilitate the mass migration of people from all over the world into the United States. Migrants can fly into certain countries deep in South America without a visa. They can then drive up the Pan-American Highway to Colombia. From there, cartels are in place to help the migrants navigate the Darien Gap, a 66-mile gap in the Pan-American Highway which goes through some of the most dangerous, mountainous, jungle on the planet. (China is currently working to complete the highway across the Darien Gap in order to make the migration to the U.S. southern border even easier.) If a migrant can make it into Panama, they can make their way to the first of many migrant camps they will encounter on their way to the U.S. There they can register with the International Organization of Migration (IOM), a U.N. funded organization that will give them an orientation on all the goods and services available to them on the rest of their journey. Part of the “goods” is that each migrant receives a debit card with \$400 pre-loaded. An additional \$400 may be loaded on the card every two weeks until they arrive in the U.S. Migrant camps are spread out across the northern trek from Panama through Central America, and also throughout Mexico. These are like rest stops along a U.S. Interstate Highway. These camps are serviced by U.N. agencies and NGO’s that collectively provide for every need a migrant might experience along their way. The U.S. Government contributes more than \$3 Billion each year to this highly coordinated U.N. effort to overrun our country. President Obama originally signed the U.S. up for the Compact. President Trump immediately withdrew us from it when he became President in 2017. President Biden immediately got us back in the Compact in 2021.

So, this election all comes down to this: do we want to continue participating in our own destruction?
