

Rainforest Alliance

VALIDATION STATEMENT FOR JADORA INTERNATIONAL, LLC 989 112th Ave. NE Suite #2502 Bellevue, WA 98004 USA

Validation Scope:

Rainforest Alliance has validated that the Isangi REDD+ Project is in conformance with the *Climate, Community, and Biodiversity Standards, 2nd Edition*. The project is located in Isangi territory, Yangambi District, Orientale Province, Democratic Republic of the Congo. This independent third-party validation covers a REDD project of 187,571 hectares of publically owned land. The objective of this validation audit is to assess the likelihood that the implementation of the planned GHG project will result in the GHG emission reductions and/or removals stated in the project GHG assertion. The information supporting the GHG assertion is projected in nature. The project estimates it will lead to a avoidance of 9,376,022 t CO_{2e} emissions over the course of the 30 year project lifetime. The project will also benefit local communities through a range of improved agriculture, enhanced protein availability, and other projects. In addition the project conserves intact tropical rainforest in the central Congo basin, offering multiple biodiversity benefits of global importance. The project has demonstrated conformance with the Gold Level criteria for exceptional biodiversity benefits. The project was evaluated to a reasonable level of assurance.

Validation Registration Code: RA-VAL-CCB-017930

Effective Date: 09 September 2014

Date of Expiration if Verification not Achieved: 08 September 2019

The validity of this statement is contingent upon the project's continued implementation of the *Climate, Community, and Biodiversity Standards 2nd Edition* and as further defined in the Rainforest Alliance Validation Audit Report dated 09 September 2014.
