We know that disaster recovery can place unexpected demands on an organization's capacity and we are interested in learning more about the challenges and demands your organization may have experienced. Please describe briefly any specific demands your organization has dealt with as the result of your tornado recovery work? In future disasters, how best can the CFMT further support the work of organizations serving disaster victims beyond grantmaking?

We were still very small and new during the tornado recovery and did not have the staff/procedures in place to respond as we would have liked, but we have since created the plans and increased our capacity which we were able to implement during the floods
