We know that disaster recovery can place unexpected demands on an organization's capacity and we are interested in learning more about the challenges and demands your organization may have experienced. Please describe briefly any specific demands your organization has dealt with as the result of your tornado recovery work? In future disasters, how best can the CFMT further support the work of organizations serving disaster victims beyond grantmaking?

Because UWGN doesn't provide direct service to those affected by disaster, our largest lift is staffing capacity to ensure funds are getting out and fund recipients are being supported to ensure proper use of funds. We reallocate time from our "usual activities" to support disaster response.
