Re: Riemann Family Funeral Homes

**RIEMANN FAMILY FUNERAL HOMES IS PROUD TO ANNOUNCE THEIR  
SIXTH LOCATION ON THE COAST**

Hancock County, MS

After serving Hancock County for over 40 years prior to Hurricane Katrina, Riemann Family Funeral Homes, Inc. is pleased to announce the opening of their new state-of-the-art Bay Waveland Chapel located at 141 Highway 90, Waveland, MS, replacing the one that was destroyed during that devastating storm.

Serving families and residents in Waveland, Bay St. Louis, lower Hancock County, Picayune and beyond, the new chapel will offer the community traditional burial services, cremation memorial services, monuments, and preplanning. And for those who have already preplanned with other funeral providers, transferring your arrangements to Riemann is as simple as a phone call.

This is Riemann's Centennial year having been founded in 1920 by Ernest T. Riemann, Sr. and Ruth Danielson Riemann. "Reopening this new location in Hancock County is a testament to our ongoing commitment to serving families with Superior Service across the Mississippi Gulf Coast and rebuilding our home," said Chad Riemann, fourth generation funeral director and President of Riemann Family Funeral Homes. Riemann opened its fifth location in 2015 in Jackson County on Lemoyne Boulevard to fill a gap in service providers in that area.

In total, Riemann now operates six locations spanning the entire Gulf Coast, including owning and operating their own facilities for cremation. The new Bay Waveland Chapel is multi-purpose and will offer the community a nicely appointed chapel and a reception area for hosting large gatherings where food and beverages will be offered.
