

To our beloved families, we thank you for allowing us to serve you even during this pandemic season. We are implementing every precaution in place to make sure that we are still able to serve you.

Families we have been given very specific instructions from the NFDA, CDC, Federal Government, State Government, and Local Government. We must limit funeral services to only 10 members of the immediate family. Once those 10 persons are the sanctuary no one else will be permitted into the building. Family please stress this to other family members outside of the 10 who may still try to come and attend the services. Our staff has been instructed to not let anyone else in and we want to keep all conflict and confrontation down.

The Federal Government has also started to implement fines to funeral homes who are in violation of these rules. The last thing we want is your loved ones homegoing celebration to be shut down and for us to be given a fine of \$15,000.

Families please continue to work with us during this very trying time and as promised we will keep you updated every step of the way.

If you have any questions, please don't hesitate to reach out.
