10 Reasons
Why Advance
Funeral
Planning Makes Sense

There are many reasons to prearrange and prefund your funeral. Listed below are some important factors to consider when making this decision.

Why Advance Planning? Consider...

1. **Regarded as an Exempt Asset...**
When you apply for Medicaid, SSI Benefits, Federal Bankruptcy, or apply for Nursing Home Care.
2. **It's Transferable...** If you should move out of state, or simply choose another funeral home, your Advance Funeral Plan can transfer with you.
3. **Your cost will not increase ...**
When you plan and fund your funeral in advance, it is purchased at today's prices. Your family will not experience the rising costs of inflation.
4. **Optional Payment Plans...**
Single and Multi-year payment plans are available. If death should occur before the payments are completed, the funeral plan may be paid in full, depending on the plan.
5. **A Program for Everyone...** Based on your overall health condition, your Advance Planning Professional has a plan that will work for you.

6. **Consumer Friendly...** After your funeral, if excess monies remain, they may be returned to your beneficiaries tax-free.

7. **Protects your loved ones...** By planning and funding your funeral in advance, your family will experience less stress and avoid spending too much.

8. **Peace of mind...** By knowing that your funeral is taken care of. You will receive the funeral you arranged, at the price you agreed to.

9. **30-Day Free Look...** If you should change your mind, you have 30 days to cancel and receive a full refund.

10. **Solid Program, Solid Decision...**
Advance Funeral Planning is endorsed by lawyers, trust officers, and financial planners as an effective way to provide for final expenses and preserve your assets for your beneficiaries.

Now is the time to start planning. Contact your Advance Planning Professional at the funeral home today.
