

The staff of Michalski Funeral Home wishes to advise the public and our neighbors that we are making every effort possible to assure that our facility is properly sanitized and safe during these trying times. Continuing our focus on the health and safety of the general public and our staff, **ALL VISITORS** to the Funeral home must wear a **FACE COVERING/MASK** when entering our facility, as mandated by State of New Jersey *Executive Order No. 125*.

We are also in sync with updates from the CDC as well as the National Funeral Directors Association in implementing proper protective procedures and protocols.

We will continue serving the public within the current guidelines set forth by our governing governmental agencies.

Thank You and Stay Safe!
