Embalming is the scientific preparation and sanitary care of the body by licensed professionals using universal precautions for the protection of public health. Except in certain special cases, embalming is not required by law. Embalming may be necessary, however, if you select certain funeral arrangements, such as a funeral with viewing. If you do not want embalming, you usually have the right to choose an arrangement that does not require you to pay for it, such as direct cremation or immediate burial. All embalming is performed by our licensed professional staff or agents, who may on occasion be assisted by licensed interns and mortuary students to the extent allowed by law. For both public health and aesthetic reasons, it is our policy to require embalming when it becomes a practical necessity. Such necessity will be determined by the specific circumstances in each individual case.
