Cloisonné

Elegant Artistry

An ancient art form invented by the French and perfected by the Chinese, cloisonné predates stained glass art. Made from brass, copper, and colored enamel, cloisonné is crafted by hand and the finished item is fired in a kiln and gilded. As a result of this meticulous process, every cloisonné piece is a beautiful, durable, and unique work of art.

Cloisonné Sets:

In addition to our beautiful full-size urns, SinoSource offers matching cloisonné keepsake products to purchase separately or as a set. Many families choose smaller urns so that each person can have their own precious keepsake, one of the unique benefits of cremation. Jewel dishes and picture frames capture memories of your loved one or provide a beautiful keepsake for a lock of hair, jewelry, or other cherished memento. A matching bud vase provides a place for a floral tribute in a glass-front niche or in your own home.

These meticulously crafted urns are made of 64-ounce sheet bronze with a brushed finish. The sleek and timeless style of these urns, combined with the durability of metal, make them an ideal choice for placement in a cremation niche or other memorial product, burial space, or at home. Marble

Timeless Designs

Crafted from a solid block of marble, natural marble urns offer the durability of stone and singular beauty forged from the earth itself. Because of the unique, natural process in which marble is created, no two pieces are exactly alike and may vary in color intensity, shade, or veining patterns. Traditionally associated with palaces and royalty, marble suggests the contents are of regal significance.

Please Note: Marble urns feature color and pattern variations contingent on natural marble material. Please inquire with your service representative for more information.

Personalization

We believe that every urn can honor precious memories and tell the story of your loved one, from selection of a specific urn to personalization options that can include:

Traditional Engraving - Names, birth/death dates, and other text can be engraved on most urns, in addition to engraved art, graphics, and photographic images. We can engrave in any language, including symbols, and backfilling is available in multiple colors. A cloisonné appliqué can also be adhered to urns with flat surfaces.

UV Printing - Full-color printing directly onto the flat surface of an urn, including photographic images, graphic images, military and first responder symbols/icons, text, and more.

Depending on your choice of urn, traditional engraving or UV printing can be added to multiple surfaces/sides of an urn. Additional charges may apply for some personalization options.

- Cloisonné – Our engraving department will choose the best location for engraving on all cloisonné urns unless the family has a specific request.

- Stainless Steel – These can be engraved on the top or sides.
- Leather Case / Chest – Cannot be engraved directly, but can be fit with an engraved plate.
- Jewelry – Can be engraved with limited letters.
- Resin – Also limited on what we can engrave on resin urns. Please contact us for further details.

Appliqués

Choose from 18 cloisonné appliqués to add a beautiful touch of color and personality to any flat surface urn. Scenic appliqués are oval in shape (5"H x3.5"W), while military appliqués are round and come in both 2-inch and 4-inch sizes.

* Please note that due to the handcrafted material, the whites in each cloisonné may come off as an off-white color.
