

ATTENTION

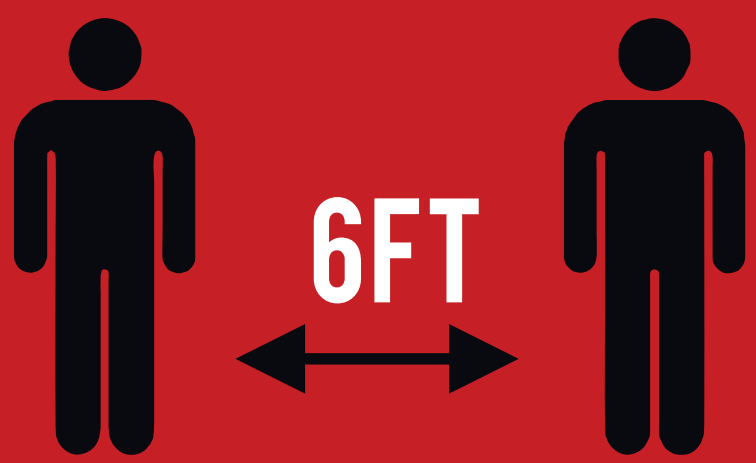

Munden Funeral Home will do all we can to minimize your risk to COVID-19 while attending an event at our facility. We have put the following plan in place:

Refrain from hugging, handshaking and touching of others, if at all possible.

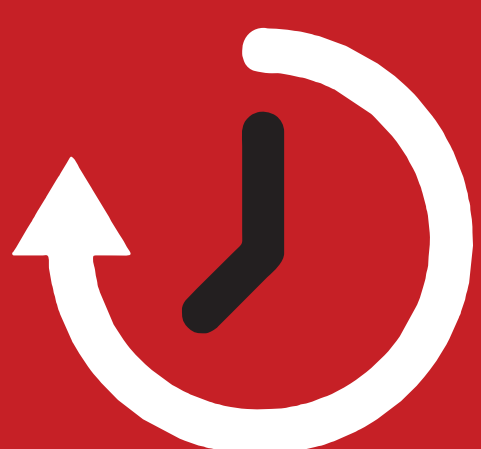

Hand sanitizer and Kleenex are available, for your use, in the lobby and visitation rooms.

A personal space zone (distance of 6 ft.) will be created between visitors and family members of the deceased to assist in eliminating the spreading of the virus by personal contact.

>10

Our staff will monitor the number of individuals congregating and if this number becomes excessive (10 people or more) we will kindly ask that conversations be moved and continued in another area.

Please keep visit time brief, allowing all guest the opportunity to express their condolences without overcrowding visitation spaces.

We have devised this plan for your protection, but we advise that if you have any concerns or apprehensions about attending our facility, please stay safely at home.
