

June 22, 2020 Update

Lakeland Funeral & Cremation Centre is committed to following the Public Health Agency of Canada's guidelines – and we will be making adjustments to our service and procedures as the situation unfolds.

As the Government of Ontario reopens the region for expanded services, we are pleased to advise that **we are now able to provide families with public funeral and cemetery gatherings** to honour their loved ones. At the same time, the health and safety of those in attendance continues to be of utmost importance, so **some restrictions still apply:**

Size of Funeral Services – to ensure adequate physical distancing is maintained, the capacity of our facilities is limited to 30%. Under most circumstances, this means no more than 44 people are able to attend a service in our Chapel Area. If the service is being hosted at another facility, the capacity will be adjusted according to that location.

Masks are mandatory for all guests and staff during services. This is a directive straight from our government regulator. Please bring your own with you.

Cleaning & Sanitation will be ongoing – all public areas, including washrooms, will be cleaned and sanitized regularly, and several hand sanitizing stations will be available at the entrances and inside our facilities.

Staff Direction –to support the family, and to share information and ensure compliance with the public health regulations, additional staff will be available throughout all services. All attendees are required to be registered upon arrival for contact tracing purposes.

There is a lot of uncertainty at the moment and things could change as more news is released. **Please follow us on social media** for additional posts.

To our community, families, friends, we will get through this.
