

Regulatory Boards

## COVID – 19

Governor Bill Lee made an announcement that the State of Tennessee will be following federal guidelines advising people not to gather in groups of 10 or more for the next 14 days or until further notice.

Dixie Funeral Home will continue to offer burial and cremation options to families as normal; however we will have to adhere to guidelines listed above.

Burials will be per regulations of the cemetery, as well as Tennessee's guidelines.

Our new service, Caring Hearts, offers family and friends to leave a note and a token for the family during this time of COVID – 19. The family has the option to release the balloons at the cemetery or they may keep them.

Questions please feel free to contact us at (731)658-3419.

## Caring Hearts

Caring hearts is a new service offered by Dixie Funeral Home, from our hearts to yours.

We understand these are difficult times therefore we would like to implement a new service for this COVID -19. While our Governor, Bill Lee has asked for us to stay at home, you can still be a part of the service of a loved one or friend.

A balloon will be given in honor of anyone who chooses to leave a message, a sentiment, a photo, a video, or light a candle.

The family can then choose to release the balloons at the cemetery or they may want to hold on to them.
