## memory cards

When a loved one dies, it can be very comforting to hear fond memories from other family members and friends. In order to help capture those memories, we provide "sharing of memories" cards to those in attendance, so that family and friends may record their fondest memories for the family.

## preserving memories

Sending flowers to a family who has experienced the loss of a loved one, is a tradition that dates back many generations. To help you recollect the beautiful arrangements and the underlying love they represent, we will capture their beauty on film and record from whom they were received.

## DVD tribute

Many say a picture is worth a thousand words. A DVD tribute can tell a story of a life lived, with pictures set to a favourite song. The family provides photos of their loved one, and we combine it with music to craft it into a DVD that can be played at visitations, Prayers, at the service itself, or simply as a keepsake. The DVD tribute may be added to any package for \$200 per song.

## deluxe folders

For families who want to personalize the custom colour folders further by adding a second or third photo, the deluxe folder option may be added to any package for \$1.00 per card. Photos may be added to the folder as a watermark inside, or to the back of the folder with a short verse. All folders are custom designed with creativity to help you capture the perfect memorial for family and friends.

## executor's toolkit

The executor's toolkit is a comprehensive 2-part estate management system that will save you time and money when organizing or settling an estate. It includes everything you need to know and do to organize and settle an estate in one professionally prepared package. The toolkit may be added for \$75.

## family good-bye or visitation

A private family good-bye allows families the opportunity to see their loved one before the cremation service takes place. This viewing includes basic preparation and use of the visitation room. Add \$300. For a visitation including full preparation, dressing, cosmetics, casketing, use of ceremonial casket and reception facility, add \$700.

## It's the little things that set us apart.

 "Sometimes it's the little things that mean so much. It may be the tissue boxes that we provide at the service, or the portable music system to play a special song at the graveside. It might be the umbrellas for family and friends when it suddenly begins to rain, or the temporary marker to mark the gravesite until the permanent monument has arrived. To some people, the little details may be little things. To us, the little details are what set us apart."
