# OUTER BURIAL CONTAINER PRICE LIST

In most areas of the country, state or local law does not require that you buy a container to surround the casket in the grave. However, many cemeteries require that you have such a container so that the grave will not sink in. Either a grave liner or a burial vault will satisfy these requirements in most circumstances. We include the price of the outer burial container, lowering device, artificial grass, and twelve folding chairs in every price. If an outer burial container is not selected a charge of \$400 for the graveside setup without a burial container will be applied as a cash advance.
