Why are pet owners choosing pet cremation?

We love our pets at Lasater Funeral Homes as much as you do.

Your furry family member will be entrusted to our care, and our staff is involved in every step of the cremation process.

We realize that pets are family too, and your special family member will be treated with utmost dignity and respect.

Each cremation comes with a clay paw print and hair-clipping. Also, an ink paw print will be electronically stored. These saved paw prints can then be used to purchase memorial jewelry immediately or in the future.

Thank you for choosing our family to your family.

*Yours in Service,
Lasater Pet Cremation Services*

Cremation is the most common form of disposition of pets. It provides convenience to pet owners and can decrease the burden during a difficult time. We realize how special pets are. At Lasater Funeral Home, it's easy to choose what option best fits your needs.

"We will provide the very best service to you and your beloved pet."
