

Regulations Regarding Memorialization of Graves

1. All items should be **24 inches or less in height**. This includes all flower arrangements, statues, crosses, Sheppard's hooks, etc. Any items of memorialization over the allotted height will be removed and placed in the flower retrieval area.
2. **No glass items or alcoholic beverages** are allowed on graves. Broken glass is dangerous when mowing occurs. It places our employees and visitors at risk of injury. **Glass items** will be removed and placed in the flower retrieval area. Any **alcoholic beverages will be removed and disposed** of if found on the cemetery grounds.
3. The outlining of graves in any way is not allowed, including filling in the grave space with items. Be careful not to allow your decorations to intrude onto a neighbor's grave. The placement of decorative solar paneled lights will be limited to two per space.
4. Live flowers or plants will be removed when they appear wilted and the containers will be discarded.
5. **Items of memorialization may not be placed permanently at a gravesite**. No planting of any type of plant, flower, or tree is allowed on a grave. **Placement of benches or chairs is not permitted**. Any non-permitted permanent item will be removed and placed in the flower retrieval area.
6. The placement of mylar balloons is not recommended. They leave metallic specks on markers.
7. Green cone vases are available in a bin located near the entrance of the cemetery. Vases are for use within San Tan Memorial Gardens only.
8. When selecting items to be placed on a grave, please take into consideration that they will be exposed to outdoor elements.
9. Please keep in mind that when placing items on graves, it is like placing them in your front yard. These items are subject to the possibility of being taken off the grave. **We cannot accept the responsibility for items that are lost or damaged.**
10. **Our groundskeepers will remove all flowers and items of memorialization on the first Tuesday of every month. The items will be placed in the flower retrieval area that is located behind the office building on the East side. Items may be placed back at the gravesite the following day.**
11. In order to avoid having the items from your loved one's grave placed in the flower retrieval area, we suggest that you remove them prior to the first Tuesday of each month.
12. Once items are placed in the flower retrieval area, please remove only the items belonging to you.
