**Pet Cremation Experts**

**(740) 452-4551**

**How long does the cremation process take?**

We make every effort to pick up your cherished pet from your local veterinary hospital on the same day as requested, if before 5 p.m. We will return your pet’s cremated remains in 3-5 business days.

**In what type of container will my pet’s cremated remains be returned?**

Each private cremation is returned in either a handcrafted wooden urn or a metal urn depending on the package.

**How do I know the pet returned to me is actually my pet?**

We only offer individual pet cremations using our own crematory. Our careful identification system ensures you receive your pet back in a compassionate and dignified manner.

**Will I receive a certificate of cremains?**

A certificate of cremation is issued with every individual cremation along with reading material to assist you in the loss of your faithful friend.
