

April 2nd, 2020

To Our valued client families

As we all face the uncertainty of the Corona Virus, we extend our thoughts and prayers to everyone in this time.

During this critical period, it is imperative that we take this virus serious and practice the social distancing required and safe disinfecting measures to ensure we curve the spread of this virus. It is our responsibility that each of us take care of each other to ensure the health and safety of our families, friends, colleagues and communities.

The staff of **Northern Star Mortuary** continues to follow the developing stories, learning more about the COVID-19 virus. We want to personally assure you that we remain committed and dedicated to providing you and your family with the highest level of service during these uncertain times. Currently the Kansas City, Kansas office is working remotely. We are discouraging in-person conferences for the safety of our families and staff. We are offering alternate meeting methods including video, telephone conferencing and emails.

We are offering to our families several type of services in these challenging financial times. Direct Cremation, Immediate Burial and Immediate viewing with no more than 10 people.

Please call to inquire about prices at (913) 400-3766 KCK or (316) 796-5300 WK.

Blessings,

Mr. & Mrs. Gwendelrae Hicks|Owners
