FOOTSTEPS IN THE SAND

One night a man had a dream. He dreamed he was on a beach, walking with the Lord. Across the sky flashed scenes from his life. For each scene that flashed across the sky, he noticed two sets of footprints in the sand, one belonging to him and the other to the Lord.

When the last scene of his life flashed before him, he looked back at the footprints in the sand. He noticed that many times along the way there was only one set of footprints. He also noticed that it happened at the very lowest and saddest times in his life.

This really bothered him, and he questioned the Lord about it. "Lord, You said that once I decided to follow You, You would walk with me all the way. But I've noticed that during the worst troublesome times in my life, there is only one set of footprints. I don't understand why, in the times I needed You most, You would leave me."

The Lord replied, "My precious, precious child, I love you, and I would never leave you. You see, during your times of suffering when you see only one set of footprints, these were not your prints. . they were My prints because that's when I carried You"
