

Life

The secret of Life is something to do!  
When you rise in the morning, the sky is blue.  
Think on the things you have to do, and do!  
Be helpful to friends, they'll thank you.

Life is full of surprises, and mystery!  
So many wonderful things to enjoy.  
Just to be able to read any story;  
A wonderful past time, to learn and employ.

Life is being, and part of the scene!  
Animals, birds, fish, so many abound.  
Yes, forests, grasslands, gardens can be seen,  
One is not alone, just look around!

Life is a gift, which people forget!  
We must always care for, with proper respect.  
Care in eating, drinking, breathing to protect.  
The rewards are numerous, and the best!

Life is meant to be a blessing!  
Do all the things that are good.  
Keep a song in your heart, try singing,  
Happiness in the favor of God.
