

♥ *To Gigi, My Love* ♥

It doesn't have to be a special day, because....

*You are always on my mind and always in my heart
I want to be with you forever,
you are my dream come true ♥*

*I love you more than anything
I know you love me too, you do so very much for me and
I love you for that too ♥*

*You mean the world to me
I cannot think of life without you
All the things that bring me happiness and joy
I want to share, my love, with you ♥*

*Share with you, all my dreams
Every day, every night
Everything we do together feels so good
It seems so right ♥*

*I think of you from the morning on,
when I see the sun rising over the island
The reflections on the water, the stars twinkling in the sky
are so beautiful, but without you, my love, ♥♥
they would have little meaning*

*You are my life, my dream come true
There could never be anyone for me
Except my beautiful you ♥*

I will love you ... ♥♥♥ ... forever and forever

~ Ray
