## *A Safe For Our Hearts*

*Imagine if we were given one moment, just a single slice of our past. We would hold it close forever and that moment would always last.*

*We would put that moment in a safe within our heart. We could open it when we wanted and only we would know the code. We would choose a time of laughing, a time of happiness and fun. A moment that made you smile and that pushed us to walk that extra mile.*

*And when we are feeling sad and low or struggling with what to do, we go to that safe and watch the moments of you. The moments that would lift our spirits every time.*

*The moments when you picked us up when the road was hard to climb. We are building our own little library embedded in our hearts for all the moments we spent with you before you had to part.*

*Now we can open that safe whenever we like, pick a moment and watch it through, our little library acts as a promise and we'll never ever forget you.*

*Love,  
Your Grandchildren*
