

Thank you for touching my life
Thank you for making me smile for a while
I'll never forget you till my heart runs out of time
oh oh oh thank you for touching my life

You came into my life like a smile
On the face of an innocent child
We walked along together awhile
And your touch made the pathway worthwhile

Oh I knew someday soon you would go
Darlin' one thing I want you to know
You touched my heart, my soul and my mind
And you gave me one look at paradise

In the eyes of the world now you're gone
But your touch on my heart lingers on

You made me a king for a while
And I thank you for touching my life

Thank you for touching my life
Yes I thank you for making me smile for a while
I'll never forget you till my heart runs out of time
oh oh oh thank you for touching my life

Thank you for touching, touching my life
