

The Academy for Coaching with Horses announces new session for groundbreaking Quantum Horse™ Program with International EFLC Instructor Kathy Pike

Boulder, CO – The premier equine facilitated learning facility in Colorado, The Academy for Coaching with Horses, has announced a new session of the groundbreaking program [Quantum Horse™: Evolving Consciousness through the Wisdom of Horse](#) to begin on May 31, 2019. Quantum Horse™ is the next evolution of raising consciousness through humans engaging with horses to learn profound lessons for one's self and to experience an intrinsic connection to all of life.

As new research has provided a scientific understanding of how our perspectives and beliefs influence our reality, right down to changes at a cellular level, this unique program blends concepts of quantum theory with unique interactions with horses to help guide participants to remove the blocks that hold them separate and enter the realm of heart-based interconnectedness with their entire being and all those around them. During this program, the masterful equine teaching herd will guide the participants into the present moment to expand their consciousness in previously untapped ways.

The program, which was first launched in 2018, is built upon 15 years of research by its creator, Kathy Pike. Utilizing the concepts of the Law of Attraction, quantum physics, sound therapy, the chakra system, meditation and the emerging field of epigenetics, Kathy and the horses will guide participants to a higher level of consciousness.

Due to the nature of the program, registration is limited to a small number of participants. To register or for more information on this and other programs [visit The Academy for Coaching with Horses calendar](#).
