YOUR GUIDE TO THE Second Appointment

GET STARTED!

INTRO: 5 MINUTES

Consider setting up your appointment by letting your customer(s) know what to expect in this appointment or party. Below are some points you might want to consider:

• First, follow up on how her skin care product purchase from her initial appointment is working for her and address any questions she may have.
• Before you start, you’ll want to make sure your customer has a clean and moisturized face. This is also a great time to emphasize the importance of using a skin care regimen to maintain healthy skin, so makeup looks even better.
• Mary Kay has a no-touching policy; so your role will be to guide your customer as she applies her own makeup. You’re teaching her how to apply the products so she can repeat it at home.
• Every product she will try in this appointment will be a sample. This is to ensure she is trying products in a hygienic manner.

You’ll want to have Section 2 samples of all the products your customer will be trying as well as the appropriate application tools, such as sponge-tip applicators, cotton rounds or cotton balls and doe-foot applicators.

Consider attractively displaying the retail sizes of products that your customer will be trying so she can see the actual products. Since you will be using samples for this appointment, it is always helpful for customers to see what they will be purchasing.

Tip: Take a Before picture of your customer before you begin! After you’ve completed your session, take an After picture!

APPLYING COLOR: 30 – 40 MINUTES

To be mindful of your customer’s time, your goal is to complete this appointment in one hour. To help with this, you may want to come prepared with samples of several of the Color Looks found in Color Confident, or Mary Kay in Touch, for customers to choose from.

You can use this guide as a resource to follow product order of application and to share benefits and techniques with your customer while she is applying the product. You decide how much product information from this guide to share! Customers love learning new tips and techniques! Plus, that is one of the awesome perks of being a Mary Kay Independent Beauty Consultant like you!

MARY KAY® ULTIMATE MASCARA™

Have your customer use the Mary Kay® Ultimate Mascara™ sample to finish her eye look.

Benefits:
• Extremely volumizing and super thickening.
• Smudge-, flake-, and clamp-resistant.

Application technique:
• Lightly wiggle mascara wand back and forth across upper lashes, starting at the base of the lashes and working up.

Tips:
• After opening, all retail-sized mascaras should be replaced every three to four months to promote optimum product performance and to help ensure mascara is free from harmful bacteria.
• Never pump your mascara wand in and out of the tube. It adds air into the barrel and dries out the formula.

While your customer is applying her mascara using the application tips you shared, you can mention that Mary Kay has a variety of mascara options.

Mary Kay also has other lash products such as Mary Kay® Lash Primer and Mary Kay® Lash & Brow Building Serum. You can also mention brow products like Mary Kay® Precision Brow Liner and Mary Kay® Volumizing Brow Tint.

• Lifeproof formula for long-lasting wear.

Application technique:
• Smile to identify the apples of your cheeks.
• Help your customer find her face shape on the second appointment place mat. She will then use the corresponding blush application.

As your customer is applying her blush, you can share with her that Mary Kay offers a portfolio of cheek-sculpting products such as highlighter and contour powders!

• Glides on easily with a clean, precise line that perfectly defines lips.

Application technique:
• Draw a line around your natural lip line. Use short, feathery strokes to create a soft, natural line. You can fill in the lip area completely to create a matte base and help lip color last longer.

Tips:
• To help thin lips appear fuller, line lips with lip liner just inside the natural lip line and apply deep shades of lip color.
• To help full lips appear thinner, line lips with lip liner just inside the natural lip line and apply deep shades of lip color.
