**RE: Jericho Rise Wind Farm LLC
Amendment to the Wind Energy Permit Application**

Dear Mr. Bilow:

Jericho Rise Wind Farm LLC (the Applicant) respectfully submits the following Amendment to the Wind Energy Permit Application for the Proposed Jericho Rise Wind Farm (the Project) in the Town of Chateaugay, New York. An application for Wind Energy Permits for Wind Energy Conversion Systems (WECS) was initially filed by the Applicant in 2007. This Amendment to the 2007 Application was prepared in accordance with the requirements of the Wind Energy Facilities Law (Local Law No. 7 of 2006) of the Town of Chateaugay, New York. The information required by the Local Law is presented in the attached amendment and in the order (and according to the numbering) listed in Section 10 of the local wind law.

Submittal of the original Application initiated the State Environmental Quality Review Act (6 NYCRR 617.9) with both the Town of Chateaugay and the Town of Bellmont serving as Co-Lead Agencies. AS you are aware a Supplemental Environmental Impact Statement (SEIS) is being prepared for the proposed Project. The SEIS has builds upon the information and analysis in the 2008 Draft Environmental Impact Statement (DEIS) that was previously prepared for the Project.

Please contact me if you have any questions or require additional information.

Sincerely,

Aron Branam
Development

Table of Contents

Section 1 Supplement to the Wind Energy Permit Application

List of Exhibits

Exhibit 1	Participating Landowner Names and Addresses
Exhibit 2	Letters of Permission Received from Participating Landowners
