Notice of Public Community Meeting For a Project Proposal Under the Large Renewable Procurement

The proponent identified below is proposing to submit a proposal to the Independent Electricity System Operator (IESO) to design, build, and operate a Large Renewable Project for the generation of electricity under the IESO's Large Renewable Procurement (LRP).

The LRP is a competitive process for procuring large renewable energy projects generally larger than 500 kilowatts. At the conclusion of the LRP, the IESO may award contracts for successful projects up to the specified procurement targets for each renewable fuel: 300 megawatts (MW) for wind, 140 MW for solar, 75 MW for waterpower, and 50 MW for bioenergy.

This notice is being distributed to notify members of the public of a public community meeting that has been scheduled to discuss the Large Renewable Project proposal. Information regarding the proponent, the Large Renewable Project proposal, and the meeting details are described below.

This public community meeting is being held as part of the early community engagement requirements of the LRP. The public community meeting will present details about the Large Renewable Project and its proposed connection line. Representatives of the proponent will be available to discuss the Large Renewable Project and the overall LRP process. Should this Large Renewable Project be awarded a contract, the Large Renewable Project would need to obtain all required permits and approvals and conduct any further required community engagement activities.

Further details regarding the LRP are available at www.ieso.ca/lrp.

Proponent and the Large Renewable Project proposal

Proponent:	Nation Rise Wind Farm Limited Partnership
Qualified Applicant from the LRP Request for Qualifications stage associated with the proponent:	EDP Renewables Canada Ltd.
Name of the Large Renewable Project proposal:	Nation Rise Wind Farm
Renewable fuel of the Large Renewable Project:	On-Shore Wind
Proposed capacity of the Large Renewable Project (MW):	100 MW
Proposed connection point of the Large Renewable Project:	Transmission Circuit L24A

IESORP/f-LRPIRFP-010r2

Proposed location of the Large Renewable Project and proposed connection line

The Nation Rise Wind Farm project site is proposed to be located solely on privately owned properties within the Township of North Stormont. The project site is generally located in the western portion of North Stormont bounded to the south by the border of South Stormont, to the west by North Dundas, to the north by Russel and The Nation, to the east by the Nation River north of Concession Road 7-8 and approximately 3 km east of Country Road 12 south of Concession Road 7-8.

It is not anticipated that the Nation Rise Wind Farm project site will incorporate any provincial Crown lands.
