Agreement from Club Members/Non-Members

Users who share their personal data with your club must agree to store data their data in ClubExpress’s US-based servers and to receive official emails from your club such as renewal notices and payment confirmations. The question below represents another type of data sharing that they may be asked to agree to. This is optional. If your club does this, users have the right to opt-out.

Does Windy City Morgan Owners Group share or sell member and/or non-member data with third parties for marketing or fund-raising purposes? For example, do club sponsors have access to member and non-member lists (such as event attendees and donors) for the purposes of marketing products and services to these members and non-members?

☐ Yes ☐ No

Data Protection Officer

It is important for your club to appoint a Data Protection Officer (DPO). This is a board member or senior staff person who is responsible for protecting the confidential data of members and non-members. The DPO also handles inquiries about data security, potential breaches, and requests to be removed or forgotten from the club’s records.

Multiple-Person Memberships

If your club has memberships with multiple people (secondary and tertiary members), we need to know how to handle these sub-members when their primary member asks to be forgotten. If you will not have these types of memberships, you can skip this question.

☐ Forget all associated members ☐ Forget the primary only, and just drop the associated members
