

Medicaid Managed Care Background

Medicaid obtained a Waiver for Medicaid Reform from CMS, which was approved in October 2018. Medicaid laid out detailed plans for the transition process to managed care and issued Requests for Proposals. Managed Care Organizations (MCOs) submitted proposals and four state plans and 1 regional contract were awarded in February 2019.

The initial rollout of the Managed Care Plan will begin in 2 regions in November 2019, with the additional 4 regions in February 2020.

This training will provide you with information and guidance to start planning for Medicaid Managed Care NOW!

A Guide To Medicaid Managed Care Contracting 3 CEUs

Wednesday, April 3, 2019

OR
