Call for COEM Talks Presentations

Over the last few years, leadership has become a guiding principle for the annual Colorado Emergency Management Conference. The speaker committee would like to take this to the next level by providing an opportunity for local emergency managers to speak during one of the plenary sessions.

Session Style

The COEM Talks are modeled on the well-known TED™ Talk format and are a new way to communicate thoughtful leadership in emergency management. Each speaker will be given seven (7) minutes to speak in a plenary session on a topic of their choice. The topic should tie back to the conference theme.

Conference Theme

“Putting the Pieces Together”

All selected COEM Talks speakers will receive one day complimentary registration and one night of hotel accommodation at the Conference.

COEM Talks Presentation Guidelines

- Each talk is limited to seven (7) minutes.
- The Talks should convey your ideas and passions, not simply be another lecture on emergency management.
- Slides and embedded videos are permitted; however, the Talk, rather than the slides or video, should convey the speaker’s passion or idea(s).
- Slide decks should support the material presented and not include speaker introductions or concluding slides with contact information. The Moderator will do introductions.
- Slides should be visual, well designed, and have minimal or no words. If speakers wish to offer additional written material, they are encouraged to do so in the form of handouts that can also be submitted online and will be made available to the conference attendees.

Speaker Benefits

- The best 6-8 speaker submissions will be selected to present their Talk during a 90-minute plenary session.
- Selected COEM Talks speakers will present on the plenary stage on **Thursday, February 21, 2019.**
- Speakers will receive certificates of participation that document credit towards the CEMA and IAEM Certification Programs under the Professional Contribution Category for Speaking.
- The plenary session room will be provided with a laptop, microphone, screen and projector.

- If a slide presentation is provided by the speaker, it will be pre-loaded on the laptop in the plenary session room.
- A speaker representative from the Conference Committee will assist each speaker as they develop their Talk.
- The moderator will introduce each speaker and will identify their background and organization where they work. In addition, the moderator will handle all on-site logistical needs for speakers.
- A speaker preparation room will be available **Wednesday, February 20, 2019**.
