

CEMA Auction

What is a Chinese Auction?

Here's how it works:

- In a Chinese Auction, bidders purchase tickets for a chance to win an item. The more you want an item, the more tickets you buy for the chance to win that item.
- Bidders can purchase as many tickets as they want, and put their name and phone number on the back of the ticket. These tickets will go into a box in front of each Chinese Auction item. The bidders' names are secret, as the box is sealed with just a slit at the top for inserting tickets.
- The more tickets you put into a box, the better your chances are to get that item.
- At the end of the auction, the box is opened and one ticket is picked from the tickets placed in the box. The picked ticket is the winner of that item.
