August

Thursday August 16 1pm-3pm CLL	Curriculum Committee Meeting I (3rd Thu)	The Curriculum Committee is responsible for planning the 40 plus programs that are scheduled each semester. We are always looking for that next new topic on our journey to life long learning. Come join us and help develop programs that are interesting and stimulating. (Sponsored by Joe Alfred)
Tuesday August 21 10am-noon CLL	The Right to Bear Arms and Gun Control - The Reach and Limits of the Second Amendment Steve Bacon	Steve Bacon, professor of political science and international affairs at UMW, will discuss recent landmark decisions of the United States Supreme Court, District of Columbia v Heller and McDonald v City of Chicago, and how they have been applied by lower courts. (Sponsored by Carolyn Sulima)
Thursday August 23 10am-noon CLL TOUR-RSVP	TOUR - Bricks and Boards in the Burg Scott Walker	Join the Tourmaster for an 8 1/2 block walk through Fredericksburg's Downtown Historic District. See and hear about history and architecture from four different centuries in places you know something about but will be surprised to learn - and enjoy - more. Meet in the Historic Market Square, located behind the old Town Hall building at 907 Princess Anne Street. RSVP required to Mary Ann Stana, mastana10@hotmail.com or 540-604-5634. Limited to 35 persons. (Sponsored by Mary Ann Stana)
Tuesday August 28 10am-noon CLL	Confederates in New England Ryan Quint	When it comes to the Civil War, large set battles in Virginia, Tennessee, and Pennsylvania come to mind. However, the war reached every part of the nation, even up in New England. Historian Ryan Quint examines two of the more colorful incidents to occur during the war. First, in June 1863, the Battle of Portland Harbor reveals a far-fetched idea that brought a Confederate raider up to the coastline of Maine. Secondly, a year later, the Confederate raid on St. Albans, Vermont proves that even in the fall of 1864, Confederates still sought ways to change the tide of popular perception of a dwindling Confederacy. (Sponsored by Mike Redding)
Wednesday August 29 11am-noon CLL	Membership Committee Meeting I (One week before BOD)	This committee handles publicity, the newsletter, maintaining the website and planning social events. Members are always welcome to attend our meetings. NOTE UNUSUAL START TIME. (Sponsored by Donna Lewis)
Wednesday August 29 1pm-3pm CLL	Administrative Committee Meeting I (One week before BOD)	This committee develops policies and plans for operating the organization. It reviews governing documents, updates the Policies and Procedures, monitors finances and projects future needs, proposes the annual budget and member fees. Members are always welcome to attend our meetings. (Sponsored by John Thompson)

Thursday August 30 10am-noon CLL	A Journey to the End of the World Mike Redding	Elder Study member Mike Redding will present photographs from his recent trip to the far end of South America, including Buenos Aires, Iguassu Falls, Patagonia, Tierra Del Fuego, Straits of Magellan, Cape Horn, Santiago and Easter Island. (Sponsored by Mike Redding)

September

Tuesday September 4 10am-noon CLL	Sherman's Red Clay Minuet Joe Alfred	ElderStudy member Joe Alfred will discuss Union General William Tecumseh Sherman's battles with Confederate General Joseph E. Johnston after the battle of Chattanooga. Joe will discuss the pros and cons of their tactics and the decisions that were made by President Davis and President Lincoln that determined the fate of Atlanta. (Sponsored by Joe Alfred)
---	--	--

Wednesday September 5 10am-noon CLL	Board of Directors Meeting (First Wednesday in September)	Board meetings are open to all ElderStudy members. Come and witness firsthand the decision-making process that ensures that ElderStudy is meeting its objectives. This is a chance for all members to suggest new ideas for the organization directly to the Board and to committee chairpersons. (Sponsored by President Jack Allison)
---	--	---

Thursday September 6 10am-noon CLL	Growing Up as a Christian in Jordan Siham Alfred	Dr. Siham Alfred, Germanna professor of math and ElderStudy member, will discuss her life, growing up in Jordan as a Christian in a majority Muslim country. She will provide a description of Christianity and Islam in the Middle East where both religions began. Siham will also discuss Lebanon where she was educated. (Sponsored by Joe Alfred)
--	--	--

Tuesday September 11 10am-noon CLL	Keeping a Home Aquarium - the Perspective of a Biological Oceanographer Michael Hydorn	Dr. Michael Hydorn, professor of chemistry at Germanna, will describe the fundamentals of keeping a saltwater or freshwater aquarium in the home. He will compare the natural ecosystems to the home aquarium, and how to make them similar. Dr. Hydorn will discuss the required chemical and biochemical systems that must become established within the aquarium in order to successfully keep saltwater or freshwater fishes. Also, he will describe the protocols of fishkeeping from getting started to maintaining an aquarium for many years, and he will include examples of what works and what fails. (Sponsored by Randy Fennemore)
--	--	---

Wednesday September 12 10am-noon CLL	Two Women Who Visited Stafford During the Civil War Jane Conner	Jane Conner, Stafford historian, author and president of the Stafford Museum and Cultural Center Foundation, will discuss Princess Agnes Salm-Salm and Mary Walker. Princess Agnes Salm-Salm was an American who married a Prussian prince. They met in Washington, D.C. when Felix Salm-Salm was a mercenary serving in the Union Army. After their marriage, she followed him to various battlefields. In the camps she cared for the wounded and sick soldiers. When she was in Boscobel, a lovely Stafford home, she actually kissed President Lincoln. After the war, Agnes had an adventurous life even traveling to Mexico to save Emperor Maximilian's life. Mary Walker was an American abolitionist and Civil War surgeon. When she was at Stafford's Chatham she did not use her surgery skills but instead was asked to place dressings on the wounded after the Battle of Fredericksburg and prepare them for the trip to hospitals in D.C. Mary was even a prisoner of war in Richmond. Dr. Walker was the first and only woman to ever receive the Medal of Honor. (Sponsored by Randy Fennemore)

The First Amendment, a Free Press and Fake News - Why Facts Matter
Rich Martin

Rich Martin, professor of journalism at the University of Illinois, will discuss how Americans today live in a digital, networked, social, interactive and information-rich age that can be overwhelming. We are challenged by ever-increasing numbers of players in the information arena who may – or may not – provide news that is credible and reliable. Readers and viewers distrust much of what they read, hear or see. Journalists are accused of manufacturing “fake news” when their stories run counter to positions taken by politicians and other newsmakers. For some, opinions and “alternative facts” matter more than fact-based reporting. It is a crazy time for citizens who are trying to navigate this new environment and find verifiable and trustworthy news and information that they need to make smarter decisions and engage thoughtfully in a democratic society. In this class we'll talk about how we as news consumers can improve our news literacy and learn how to distinguish between facts, fiction and opinions. (Sponsored by Carolyn Sulima)

Play Discussion — *The Amish Project* by Jessica Dickey
Gregg Stull

Actors take the stage to inhabit the lives of the Pennsylvania Amish community brought to its knees by unimaginable tragedy. In October of 2006, a shooter entered a one room schoolhouse in the Old Order Amish community and took aim, leaving five young girls dead and five injured, before he turned the gun on himself. Playwright Jessica Dickey's fictional story exploring the aftermath of this real-life event explores the unthinkable concept of forgiveness in the face of a senseless and violent act. Standing on either side of the oft-blurred lines between fact and fiction, *The Amish Project* is a hauntingly elegant and timely study of compassion and its rightful place in today's changing world. Tickets will be available during and after class. Box Office 540-654-1124. Shows: Thursday-Saturday at 7:30, Sunday at 2:00. With an additional performance on September 29 at 2:00. For the hearing impaired, listening devices are available for checkout at the Box Office prior to each performance. The parking lot across from Klein should be reserved for ElderStudy. Parkinson's Disease
Richard Gaudio

Rich Gaudio graduated with a BS and an MS in Physical Therapy from SUNY Upstate Syracuse. After graduation Rich moved to Fredericksburg and has been practicing in the realm of rehabilitation ever since. Parkinson disease is the third leading degenerative, progressive, neurological disorder affecting adults in the US. Approximately 10 million people around the world and 1 million people in the US are currently diagnosed. An additional 60,000 people are diagnosed every year in the US. It has a ratio of 1.5 to 1, male to female and an average age of onset of 68 years old. This disease costs the US almost \$25 billion per year in healthcare costs. The reality is, despite there being no cure, the disease is very manageable and there are several programs in the US that are improving how people manage Parkinson's Disease. What we have learned about these interventions has had a profound impact on our aging population, even if they do not have Parkinson's Disease. (Sponsored by Bill Wemmerus)

Harriet Tubman - Hero of the North Star

Beth Parnicza

Beth Parnicza, historian with the Fredericksburg and Spotsylvania National Military Park will address the question: "What creates a hero?" Harriet Tubman was a woman who never quit. Born a slave on Maryland's Eastern Shore, she read the stars and navigated the marshes to steal herself to freedom. Dissatisfied with a freedom that did not include her loved ones, she famously broke the law in at least 13 return trips to carry her family and friends from Maryland to freedom in the North and later, Canada. Most famous for her work on the Underground Railroad, her life personified her commitment to doing right. She served as a nurse, cook and spy in the Civil War and she participated in the Combahee River Raid in South Carolina that destroyed riverside plantations and freed 750 enslaved people. Her later career included caring for elderly African Americans and working as a suffragist. Her tireless efforts prove the power of an individual to help change the world. The Academy Awards Best Pictures - The Last Episode 2010-2014

Gary Olsen

This last episode of the series wraps up the examination of the Academy Awards Best Pictures as the line-up of nominated films fittingly shows a reflection and nostalgia of the past of the Academy's existence. Films such as The King's Speech (2010), The Artist (2011), The War Horse (2011) and Midnight In Paris (2011) all show that history still provides great story ideas for contemporary audiences. **NOTE THAT THIS SESSION IS TWO AND A HALF HOURS LONG.** (Sponsored by Alan Zirkle)

Play Discussion — *Merrily We Roll Along* by Stephen Sondheim and George Furth.
Gregg Stull

Growing up. There is nothing more certain. For Frank, Charlie and Mary, their lives are all ahead of them—or rather, behind them—in this brilliantly conceived musical by Stephen Sondheim and George Furth. *Merrily We Roll Along* masterfully reveals, in reverse, the relationships of three best friends and their successes in life, love, friendship and all the little bumps along the way. With songs like the gorgeously heartbreaking “Not a Day Goes By” the sassily uplifting, “Old Friends” and the exquisitely lyrical “Good Thing Going” *Merrily* is sheer brilliance as it connects the rocky terrain between the characters’ disillusioned adulthoods to their hopeful, starry-eyed youthful beginnings. Tickets will be available during and after class. Box Office 540-654-1124. Shows: Thursday-Saturday at 7:30, Sunday at 2:00. November

Thursday November 1 10am-noon CLL	George Washington - Hidden in Plain Sight John Maass	Dr. John Maass of the Army Historical Office just published a book which is essentially a field guide to Washington's footsteps in Virginia. George Washington's lifetime connection to the state of Virginia is well known along with his visits to iconic sites in the Commonwealth. His extensive travels also brought him to other venues, many of which are commonly known but are not popularly associated with Washington. Using records of Washington's financial accounts, along with other resources, Dr. Maass has reconstructed his lesser known travels to many sites, some of which can still be accessed today. Dr. Maass will present a guide to these places which are "hidden in plain sight." (Sponsored by Dennis Van Derlaske)
Tuesday November 6 10am-12:30pm CLL	The Origins of Cinema Gary Olsen	This lecture traces the origins of moving pictures from the beginnings before film to 1907. Book author and veteran film lecturer Gary Olsen will offer insights into the infancy of cinema, including Thomas Edison's role in the development of early film. A Skip and a Jump - The Moon and Mars
Jon Malay

Jon Malay returns to ElderStudy with two more of his science lectures, normally presented to audiences on high end cruise ships. This time, we look outward to the only two neighboring worlds we humans can realistically aspire to reach any time soon – our moon and our neighboring planet Mars. A rocket-powered hop now routinely takes astronauts and cosmonauts to the International Space Station in low Earth orbit and a skip took us to the moon almost 50 years ago. But it's going to take a very big, expensive and risky jump to finally get people to Mars. We do, however, already know a tremendous amount about both of them from our robotic and Apollo manned missions to the moon and our ongoing and planned robotic missions to Mars today. In this two part lecture, we will take a look at the scientific knowledge of these worlds that we have today and the human exploration we hope to do in the next few decades. The Life and Films of D.W. Griffith
Gary Olsen

Join book author and veteran film lecturer Gary Olsen as he examines the films of the "Father of Cinema," David Wark Griffith, who created film as the art form we know today. Griffith almost single-handedly formulated the way movies look, developing innovations that reshaped film from simple silent shorts to sophisticated full-length feature moving pictures. **NOTE THAT THIS SESSION IS TWO AND A HALF HOURS LONG.** (Sponsored by Alan Zirkle)
