Bio

Donna Grindle has been in the healthcare IT field for 30 years. After spending her early years in software development, she progressed through various departments, management, and executive positions throughout the 1990s. Donna opened her own consulting firm in 1998 specializing in technology support and consulting for a variety of businesses in the medical industry. As Founder and President of Kardon Compliance, Donna's extensive experience is focused on helping all types of businesses protect the valuable information they create, receive, maintain, and transmit every day.
