DID YOU KNOW ?

“A bowsprit may be extended only when being used for its intended purpose of flying an asymmetric spinnaker. When approaching the windward mark, it may not be deployed until the process of hoisting the spinnaker has begun, or until the yacht pierces the plane of the windward mark while on starboard tack. It must be retracted as part of a continuous process of retrieving the spinnaker.” (E-SCOW BOWSPRIT USE: RRS 50 is modified)
