Reporter

(Gwinnett to Cobb Areas)

*Meets virtually every
2nd Thursday at
7:30PM*

My name is Rodney Banks – President of the New North Perimeter Area Alumni Chapter here in Metro Atlanta serving Gwinnett County up through the perimeter including Cobb County. The NPAAC “North Perimeter Area Alumni Chapter” was chartered on March 11, 2021 and began our journey of providing additional support in our communities by expanding our “ASU” brand. I wanted to take this opportunity to invite all of you to consider joining us and help continue the great work in the community by providing collaboration opportunities with fellow Alumni and providing additional support to our beloved Albany State University.

In alliance with our National Alumni Association and Officers, we continue to expand the Albany State University footprint, providing opportunities for continued growth, professional development and pursuit of a degree in various fields of study.

Our main goal is to provide scholarship opportunities for prospective students through fundraisers, social events, university college fairs and annual ASU campus visitation.

Please consider joining us and donating to “keep the dream alive” inspiring and mentoring others that need our help and support. Albany State University has a long history of graduating industry leaders in all fields of human endeavor and contributing to society.

For information on how you can join, dues, and other pertinent information about the New North Perimeter Area Chapter, please click on the link below.
