Pi Omega Chapter Charm City Ques Support the ZERO Prostate Cancer Challenge

Join us for Free Health Screenings at the 7th
Annual Staying Alive Community Health
Festival

We are teaming up with Chesapeake
Urology to provide FREE prostate cancer
screenings. In 2016, over 180,000 men
will be diagnosed with prostate cancer.

More than 26,000 will die from the disease.
African American men are 60% more likely
than the rest of the population to develop
prostate cancer.

The good news is, early detection
helps you beat the odds against
prostate cancer. A few minutes
could save your life.
