

Core Competencies

The Association for Facilities (AFE) Engineering is able to provide specialized maintenance and operational consulting, training, and proprietary operational and management certifications for businesses implementing their infrastructure security, sustainability and energy reliability initiatives - using a CSR model. AFE also provides classified/classified sensitive & non-classified consulting and training to government agencies that need to meet legislated mandates and directives.

AFE provides domestic and international training, facilities-related consulting services, and proprietary operational and management certifications as following:

- Provide hands-on computerized training for Energy Charting that incorporates electronic calculations for energy consumption measurements. This training expedites the examination of energy information from buildings, and ultimately reduces the time spent analyzing utility meter data and system operational data, supporting Executive Order 13514 (2009); Executive Memorandum 12/5/2013 (Federal Leadership on Energy Management), and the Energy Efficiency Improvement Act of 2015
- Provide global training and certification for internationally recognized facilities maintenance and engineering management; that also provides detailed training for specific core competencies as outlined within the Federal Buildings Personnel Training Act, (Public Law 111-308).
- Provide training and direction to the Department of Homeland Security, Directorate Office of Infrastructure Protection (IP); the Department of State, and other Federal departments and agencies, pursuant to PRESIDENTIAL POLICY DIRECTIVE/PPD-21.

Past Performance

- United States Department of State
Via Overseas Building Operations (OBO)
- United States Department of Army
Via Army Career and Alumni Programs (ACAP)
- United States Department of Navy Via
Naval Facilities Engineering
Command (NAVFAC)
- United States Department of Homeland
Security Via FEMA - Mount Weather

Value Proposition

Established in Boston, Massachusetts in 1915 and incorporated in 1954 in the State of Illinois, AFE is headquartered in McLean, Virginia, able to provide a wide array of core competency training, national & international certifications, and infrastructure support for federal government employees and agencies
