

GIK 242 Acoustic Panel

The **242 Acoustic Panel** measures 24.25" x 48.5" x 3.5" and has a built-in air gap which not only increases low end absorption, but allows the panel to hang truly flush on the wall. Perfect for first reflection points or above the listening spot.

\$179.97 for 3 (\$59.99 each)

GIK 244 Bass Trap with **FLEXRANGE** TECHNOLOGY

When combined with our proprietary RANGE LIMITER membrane system, the **244 Bass Trap w/FlexRange Technology** absorbs up to 50% more low end (below 60Hz) and retains 75% more high end (from 400Hz and above) versus the broadband FULL RANGE option.

\$139.98/pair (\$69.99 each)

GIK Soffit Bass Trap©

The **Soffit Bass Trap©** measures 17" x 46.5" x 17" and has been effectively designed to absorb more low end; but also does an excellent job of absorbing the high end. The **Soffit Bass Trap©** can rest free standing in a corner or can be mounted where it will not take up floor space.

\$229.00 each

GIK Tri-Trap Corner Bass Trap©

The **Tri-Trap©** is one of our most effective bass traps and is constructed with a solid core. The **Tri-Trap©** measures 23.5" x 16.5" x 16.5" and is 47" tall. It is freestanding and able to hold up to 50lbs in weight. The design allows the Tri-Trap© to be stacked floor-to-ceiling in corners for maximum coverage.

\$258.00/pair (\$129 each)

GIK Monster Bass Trap with **FLEXRANGE** TECHNOLOGY

The **Monster Bass Trap with FlexRange Technology** is our most effective panel, raising the bar for bass traps. Measuring 7" thick, the design of the **Monster Bass Trap** allows it to be used in multiple quantities to absorb as much bass as possible while leaving life inside the room.

\$118.99 each

GIK ArtPanel

GIK uses state-of-the-art dye sublimation to transfer YOUR image onto fabric to create a custom **ArtPanel**. Professionally constructed with a thin 2" profile and custom-sized to fit your artwork, the **ArtPanel** blends with existing décor making it the perfect option for restaurants, homes, and recording studios.

Standard sizes start at \$129 ea

GIK Screen Panel

The **Screen Panel** behaves as a *gobo* – a movable acoustic isolation panel. The 32"W x 72"H x 3"D free standing **Screen Panel** can be unfolded to behave like a 242 Acoustic Panel or folded like a 244 Bass Trap. It's our do everything panel. Also available in custom sizes.

\$299.00 each

GIK FreeStand Acoustic Panel©

The **FreeStand Acoustic Panel©** is a *gobo* which is ideal for any room where wall mounted panels cannot be used or for rooms with multiple purposes. The **FreeStand©** covers 5 feet of vertical wall space and is available in a 2" or 4" profile to fit your needs. Place the **FreeStand©** wherever you need and store it away when not in use.

Starting at \$119.00 each

GIK Spot Panel

Completely customizable, the flexibility of the **Spot Panel** means you can arrange them in stylish designs and patterns. The result is not only an attractive look, but an impact on the acoustics of your space.

Starting at \$35.00 per panel

GIK Scopus Tuned Membrane Bass Trap

The **Scopus** series are tuned bass traps designed to tackle specific low frequency problems that can still remain after treating a room with broadband bass traps. **Scopus** traps work in the desired range only, leaving your mid- and high-end frequencies intact instead of deadening a room.

Starting at \$189.00 each

GIK Q7d Diffusor

The all wood **Q7D Diffusor** is a 7-root well diffusor designed for a wide variety of placement options from rear wall, reflection points, or behind dipole / bipole speakers to address specific situations. The **Q7D** is available in blonde, brown or black veneer.

\$349.00 each

GIK Scatter Plate

GIK Acoustics offers the built-in **Scatter Plate** option – a wooden plate that adds one-dimensional scattering / diffusion. The **Scatter Plate** is built-in between the fabric and the absorption material on GIK's 242 Acoustic Panel, 244 Bass Trap, Monster Bass Trap, Tri-Trap or ArtPanel.

\$49.00 each (as an add-on)

GIK GridFusor©

The thirteen-root **GridFusor©** diffusor is specially designed to be a drop in replacement for any standard 2' x 2' ceiling tile. It can also be easily mounted on walls using adhesive, double sided tape, or even pins depending on your situation and desired permanence. The **GridFusor©** is also paintable to blend with any décor or color scheme.

\$199.96 for 4 (\$49.99 each)

GIK QRD Diffusor

The **QRD Diffusor** is a 7-root diffusor that begins scattering at approx 350 Hz and offers effective diffusion through 3 kHz. Available in your choice of 3 colors for the EPS core (black, off-white or brown) and 4 different beautiful wood frames (blonde, black, brown or red). Excellent diffusion and a reasonable price!

Starting at \$129.00

GIK Acoustics Greensafe

Greensafe means your GIK Acoustics product is created with eco-friendly products.

GIK Acoustics uses **PureBond®** – Columbia Forest Products' exclusive formaldehyde-free innovation for hardwood plywood manufacturing. Using non-toxic, soy-based **PureBond®** eliminates added formaldehyde from standard veneer-core and non-UF composite hardwood plywood core panels.

GIK Acoustics products are also made with sound absorption insulation with **ECOSE® Technology** by Knauf. **ECOSE®** absorption material is manufactured from naturally occurring and/or recycled raw materials and bonded using a bio-based technology free from formaldehyde, phenols, or acrylics and with no artificial colors, bleaches, or dyes.

GIK Acoustics fabric panels carry a **Class A Fire Rating** which is the highest rating possible under ASTM Test E84 for fire safety.
