

Log In and Change Your Password

Introduction

The Bradford Hall front desk personnel can assist you in obtaining your initial login information.

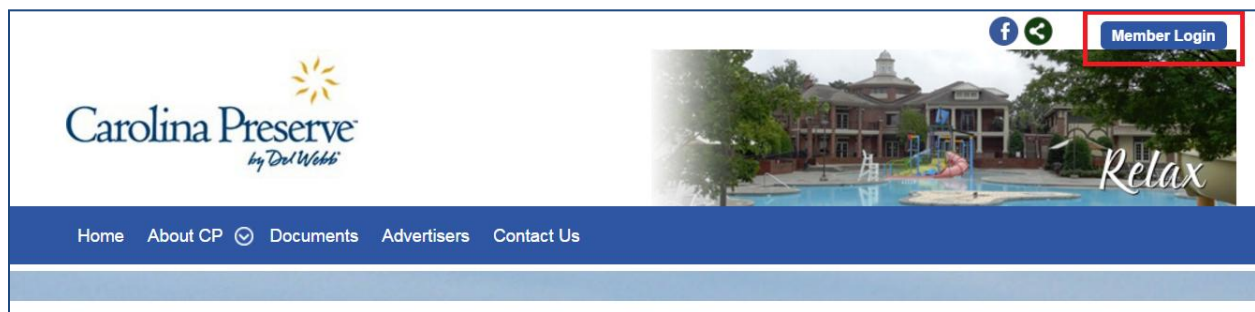

Give them your email address and first name and they will initiate an automated Welcome Email from the website with:

- Your unique username
- Your temporary password
- A link to the new website

You will need this information to log in to the website.

Log In to the New Website

1. Click the link in your Welcome Email or type **www.cpamberly.net** into your browser.
2. Click the **Member Login** button in the upper right hand corner of your screen to open the login screen.

3. Enter the **User Name** and **Password** given to you in the Welcome Email.
4. If you want your computer to remember your password each time you log in, click the check box that says **Remember me on this computer**.
5. Click the **Login** button.

Change Your Password

The first time you log into the new website you will need to change your password. Find tips for creating a strong password in the **Password Hints** box. You will only need to change your password one time.

1. Click in the **Password** box to enter your new password.
2. Click in the **Confirm Password** box to enter your password again.
3. If you want your computer to remember your sign in for subsequent visits, click the square to highlight **Remember me on this computer**.
4. Click the **Save** button to save your changes.

User Name and Password

Some areas of our web site are only available to members. You must be logged in to access these features.
The name you choose must be unique within the association.

User Name 19 of 50 characters used

0 of 50 characters used

0 of 50 characters used

Remember me on this computer

Message

You have successfully logged in with your temporary password. Before proceeding, you must create your permanent password. You may also change your user name to something more convenient if you wish.

Ok

Password Hints

A password strength indicator will give you a score on your selected password as you type. Note that this is for your information only - this web site does not enforce specific password rules.

Some tips for a strong password:

- Do not use common, obvious passwords like 'password' or '123'
- Do not use easily guessed passwords like your first name or your birthday
- Include a mix of upper- and lower-case letters and numbers
- Add punctuation and other special characters
- Longer is better
- A 'passphrase' is often better than a complex password. For example, 'My favorite color is ecru' is a very strong password; it is easy to remember and hard to guess
